HAPPY ANNIVERSARY to BRWCD—WE'RE 31!

The Bear River Water Conservancy District was created September 8, 1988, by court decree under the guidelines of the Utah Water Conservancy Act. Our **Mission Statement** maintains we will endeavor to:

- ◆ Conserve and protect water and water rights
- ◆ Develop and provide water for municipal, industrial and agricultural use and
- ◆ Use these resources to best serve the residents of Box Elder County.

The District's service area encompasses all of Box Elder County. We operate and manage six culinary water systems in different areas of the county that have wholesale and retail components. We strive to provide clean culinary water and excellent customer service to our customers. We provide help in the way of technical support and education to other water companies, municipalities and developers throughout Box Elder County.

The District's Master Plan includes analysis of future water supply and demand, population projections, conservation, and designates future projects that are needed. General Manager Carl Mackley views the Master Plan as a 'living document' and will use it to guide the District's upcoming projects.
