

Just a few
friendly
reminders:

When you call for a Blue Stakes on your property, BRWCD operators will only mark the waterlines to the meter box. We did not install the water lines to your home and therefore we cannot locate or mark them for Blue Stakes.

BRWCD HIGHLY RECOMMENDS FOR EACH OF OUR CUSTOMERS TO HAVE A PRESSURE REGULATOR INSIDE THE HOME.
We recommend zero to 200 psi. Call us with questions, or contact your plumber.

Please keep in mind that the water meter lid needs to remain visible to our operators for meter reading and maintenance. If you have grass or flowers that have grown over your meter cover, please have it cleared. Also be mindful of the covers when doing snow removal. If you have a damaged cover, please let us know so it can be replaced.

Contact our office if you have
any questions.
